WELCOME TO RACE AROUND DENMARK

First of all, thank you to Everyone who joined the 2021 edition of **Race Around Denmark**. Planning has not been easy, and I expect finding the motivation to train has also been a struggle. But you (We) made it, well done.

The following **Race Book** contains relevant race information for 2021. The RAD rules, are included. in the **Rule Book** which can be found on our website. It is mandatory for all participants to read the rules of the race.

We do not hand out a copy of the **Route Book**, you must print a copy if you need it. If participants wish route directions in writing, we recommend them to go to **STRAVA** and extract them from this site.

When possible, this years route is placed on bike paths, this is required by law and for your safety. Some Stages have notes added, aimed at supported riders, urging them to stay on a bike path, while their follow car have to cover a short distance, with the rider out of sight, and then meet again.

Supported riders will NOT be penalized for staying with their follow-car instead of using the bike path, in the sections mentioned in the stage notes, but we HIGHLY recommend they do.

There are a few places mentioned where caution is advised. It is by no means a fulfilling list of the places which can be hazardous. **We urge that all participants, ride with caution and focus, at all times.**

For all other information, we recommend our website: www.racearounddenmark.org
